

AMBIT, MK: WITAN GATE

The Client

Ambit are fit out and refurbishments specialists based in the UK, with national coverage.

Ambit are committed to delivering high quality CAT A and B projects throughout the UK and pride themselves on being leaders in fit out and refurbishments. With a clear focus on sustainability, Ambit are always looking for new, innovative ways to ensure a high recycled rate on their fit-out projects.

The Challenge

Following a strip out and CAT A fit out on their Witan Gate, Milton Keynes site, Ambit instructed Encore to manage all site waste activity. Encore also facilitated the strip out waste.

As part of both Ambit and Encore values we strive to minimise carbon footprint. Encore made it their mission to assist site with a complete segregated waste plan as much as possible.

The Solution

Thanks to our nationwide chain of vetted suppliers, Encore is able to provide total waste management, strategic support and therefore, could also assist with Ambit's

“

Working with Encore we managed to segregate as many waste streams as possible, and achieve the highest recycle rate and 100% diversion from landfill. The corex was able to be 100% recycled- shown in the Encore monthly waste statistics and as a bonus offered us a saving! Thank you!

”

- Romario Vago, Project Manager

remaining waste management needs for the fit-out.

Encore provided a range of skips for the site - including 6YD, 12YD and 40YD RORO - and 360 litre bins to be used as slave bins.

The 360 litre bins allowed waste to be easily transported around site complying to H&S requirements.

As part of our built-in-benefits, Encore also supported the client during the tender stage and were able to support with all documentation, as well as provide expert advice regarding BREEAM.

The Results

Encore assisted with the waste stream segregation, whilst providing complete documentation and reporting on all associated waste management activities (See graph below).

Encore's expert waste co-coordinators put in place logistics to achieve the best results possible, using their in-depth knowledge and wide-stretching experience.
